MSDS

1.Product and company logo

Product name: Fountain powder
Company name: Shanghai Chenjie Printing Materials Co., Ltd
Address: 918#, Building 1, No.199, Jiangkai Road Minhang District, Shanghai
Tel: 021-61311286
Fax: 021-61311286

Usage: Dissolve it in water at 1:1000, stir it thoroughly and pour it into the sink.

2.Components and related information

Ingredients	Content %	English name	Dangerous goods No.	CAS No.
Citric acid BP04	55	Citric Acid	UN 1789 8/PG 3	77-92-9
Trisodium citrate BP06	45	Trisodium citrate	24899497	6132-04-3

3.Dangerous goods identification

Dangerous: May cause burns to the digestive tract if swallowed
long contact may cause dry itchy in skin

4.Emergency method

Symptom:
When get into eyes: there will be slight eye irritation, causing eye redness and swelling.
Long time skin contact: dry and itchy skin.
When taking: you will feel a burning sensation in the digestive tract and mouth.

Emergency treatment :

After long skin contact: Use soap to wash, chemical reagents are not allowed.If the symptoms are serious, please consult a doctor.
When get into eyes: Wash immediately with plenty of water for at least 5 minutes. If wore contact lenses, take off them and see a doctor immediately.
After taking : Take plenty of water immediately. If still feel unwell, see a doctor immediately.

5.Fire prevention

Routine measures:No, non-combustible

.

6.Danger prevention method

In case of leakage : Rinse directly with clean water. It can also be buried with sand or foam.

7.Management and storage

7.1 **Management**

Keep the container sealed, close the lid in time after using.

7.2 **Storage**

Store at room temperature. Avoid direct light.

8.Engineering control and personnel protection

Engineering control: When the air concentration exceeds the standard,local ventilation should be taken near the source, and more strict ventilation equipment must be used in special cases.

Respiratory protection: No special protection is required normally. It is recommended to use appropriate respirator when exposed to high concentration.

Eye protection: Wear chemical safety glasses when exposed to high concentration.

Body protection: wear anti-static work clothes, safety boots, and protective apron is recommended.

Hand protection: polyvinyl alcohol, chloroprene rubber, butyl rubber and polyethylene gloves are recommended.

Other protection: no smoking at work site. Avoid long-term repeated contact.

Staff protective equipment (during disaster relief)

Gloves,Face protection glasses, protective clothing (rubber material), oxygen mask and oxygen tank.

9.Physical and chemical properties

Appearance and character: white powder.

Melting point (℃): no data

Boiling point (℃): 436

Relative density (water = 1): 0.8 (15.56 / 15.56 ℃)

Flash point (℃): None

Solubility: soluble in water.

10.Stability and reactivity

Stability: stable

Polymerization hazard: non polymerization

Decomposition products: water, carbon dioxide

11.Toxicological information

Long term contact can cause dry itching.

12.Ecological information

上海市江凯路 199 号 918 室 电话：021-61311286 传真： 021-61311286 邮编 200433
Add: Room918A,No. 199, Jiangkai Road, Shanghai Tel: 021-61311286 Fax: 021-

There is no report shows that the product will have an impact on the environment.

13.Waste Disposal

Waste disposal method: According to the requirements of national and local laws and regulations. Disposal by controlled incineration.

14.Transportation information

Dangerous goods No.: No
UN number: no information
Package mark: ordinary package
Package type: no information
Packing method: The packing should be firm and intact, can resist the normal impact, vibration and extrusion during transportation, storage and loading and unloading,
Transport precautions: No special specification

15.Regulatory information

No information so far

16.Other information

Compilation description:

1 Although this MSDS describes some hazards, we do not guarantee that these are the only hazards. Users must refer to the above data according to the actual use situation, and make their own safe operation procedures. The data in this MSDS is for safety reference only and does not represent the product specification.

2 The information provided in this note represents the best we know about the product at present, but it does not guarantee the use, satisfiability, purchasability and adaptability of the product for any purpose. Losses caused by negligence or human error are not included in the compensation. In any case, the company shall not be liable for direct or indirect damages. The information contained in this table can not replace the work environment assessment system formulated by users according to other health and safety regulations. The provisions of health and safety regulations in the working environment and the control regulations of health hazard products are applicable to the on-site use of the products.
