Moist roller cleaner

Safety data sheet

1. Product and company logo

Product name:Moist roller cleaner/Dampening roller cleaner
Company name: Shanghai chenjie printing materials co., LTD.
Address: no. 918, 199 jiangkai road, Shanghai
Telephone: 021-61311286
Fax: 021-61311286

2. Components and related information

Ingredient	Content %	No.CAS		
solvents	95	/		
surfactant	2.8%	/		
emulsifier	2.2%	/		

3. Dangerous goods labeling

Risk:
Risk:
no

4. First aid measures

Symptoms:

Skin contact for a long time: may cause dermatitis.

General first aid measures:

When the skin contact for a long time: soap can be used to clean, do not allow the use of chemical reagents. If symptoms are severe, seek medical advice. After eating: gargle. If you feel unwell, seek medical advice.

5. Fire prevention measures

Routine measures:

Extinguishing agent: use foam, dry powder, carbon dioxide or mist water.

Personal protective equipment (emergency) gloves

Protective clothing

Other information: none.

6. Risk prevention measures

Leakage: clean the leakage into the container. If possible, first wet to prevent dust.

7. Handling and storage

7.1 processing

Treatment: keep the container sealed and close the lid after use. Maintain good ventilation environment, away from heat and fire sources. Do not smoke or drink water in use.

7.2 store

Store at room temperature. Avoid direct sunlight. Ensure the storage environment is ventilated.

Please keep away from the following products: heat source, oxidant

8. Engineering control and personnel protection

Engineering control: closed production process, enhance ventilation. It is suggested that local ventilation should be adopted near the source, and more strict ventilation equipment should be used under special circumstances.

Respiratory protection: no special protection is required. Proper respirator is recommended for high concentration exposure. Eye protection: wear chemical safety glasses in high concentration contact.

Body protection: wear antistatic overalls and safety boots. Protective apron is recommended.

Hand protection: polyvinyl alcohol, neoprene, butyl rubber, polyethylene gloves are recommended. Other protection: no smoking at work. Avoid prolonged repeated exposure.

Staff protective equipment (disaster relief) rubber gloves

9.Physical and chemical properties

Appearance and properties: milky liquid.

Melting point (℃) : none

Spontaneous combustion (℃) : unnatural solubility: dissolved in water.

10. Stability and reactivity

Stability: stable

Forbidden compound: strong oxidant

Avoid contact conditions: open fire, high heat polymerization hazard: no polymerization

Keep product away from heat source and oxidant and avoid contact with fire source and oxidant

11. Toxicological information

Acute poisoning: no data available

12. Ecological information

There are no reports of any environmental impact

13. Waste disposal

Disposal method: dispose according to national and local laws and regulations. Disposal by controlled incineration.

14. Transport information

Dangerous goods no. : Non-prescribed

UN no. : no data available

Packing mark: ordinary packing category: no data available

Packing method: the packing shall be strong and intact, able to resist the normal shock, vibration and extrusion in the process of transportation, storage and loading and unloading, and convenient for loading and unloading and handling.

Transport notes: transport vehicles should be equipped with the corresponding types and quantities of fire equipment and leakage emergency treatment equipment. It is forbidden to use mechanical equipment and tools that are easy to produce sparks for loading and unloading.

15. Regulatory information

No data available so far

16. Other information

Preparation instructions:

1 although this MSDS describes some hazards, users must make their own safety operation procedures according to the actual use of the above data.The relevant data in this MSDS is only for safety reference and does not represent the product specifications.

2 the information provided in this note represents the best of our current knowledge of the products, but does not warrant the use, satisfability, purchasability or adaptability of the products for any purpose.The loss caused by negligence or human error is not included in the compensation.In no event shall the company be liable for direct or indirect damage.

3. The provisions of health and safety laws and regulations in the working environment and the regulations on the control of health hazard products shall apply to the on-site use of the products.
