Technical Data
Meiji 9700A-S

Speciality:

1. Has excellent stripe absorption properties
2. Suitable for all kinds of paper, nemesis of paper marks
3. Easy installation
4. Has excellent ink absorption

Technical parameters:

1. Style No.: 9700A-S
2. Suitable for: Sheet fed offset printing
3. Type: Compressible rubber blanket
4. Surface color: Blue
5. Thickness: 1.95mm/3PLY
6. Compression characteristic: l GT 0.312-0.38
7. Surface roughness (Ra): μm 1.00±0.4

Printing performance

Inkresistance	Cleaning resistance	Ink absorption	Dot restoration	Stripe absorption
Excellent	Good	Excellent	Good	Excellent

Notice for use:

1. Before printing, please use rubber blanket cleaning agent to clean the surface of the blanket

2. Please use the torque wrench (constant force wrench) specified by the printing machine manufacturer to gradually tighten the blanket, and the tightening strength at both sides should be almost the same

3. After blanket installed, please use the same wrench to tighten the blanket once again

Manufacturer name: Shanghai Meiji
