PrintBar 7180A Printing Rubber Blanket

Technical reference:

Color: blue

Thickness specification : 1.95mm/1.68mm

Hardness：76-78

Number of ply：3ply

Back line：prasinous line

surface roughness：0.8-1.0 μ m

range of application ： Packaging printing speed 10000-12000 printing

Features

- Strong versatility, more suitable for packaging and printing。
- Good compression resilience, absorb shock resistance is strong, can absorb the bar and reduce paper mark， Tolerance is big, Suitable for paper jam, thick paper, etc.
